

---

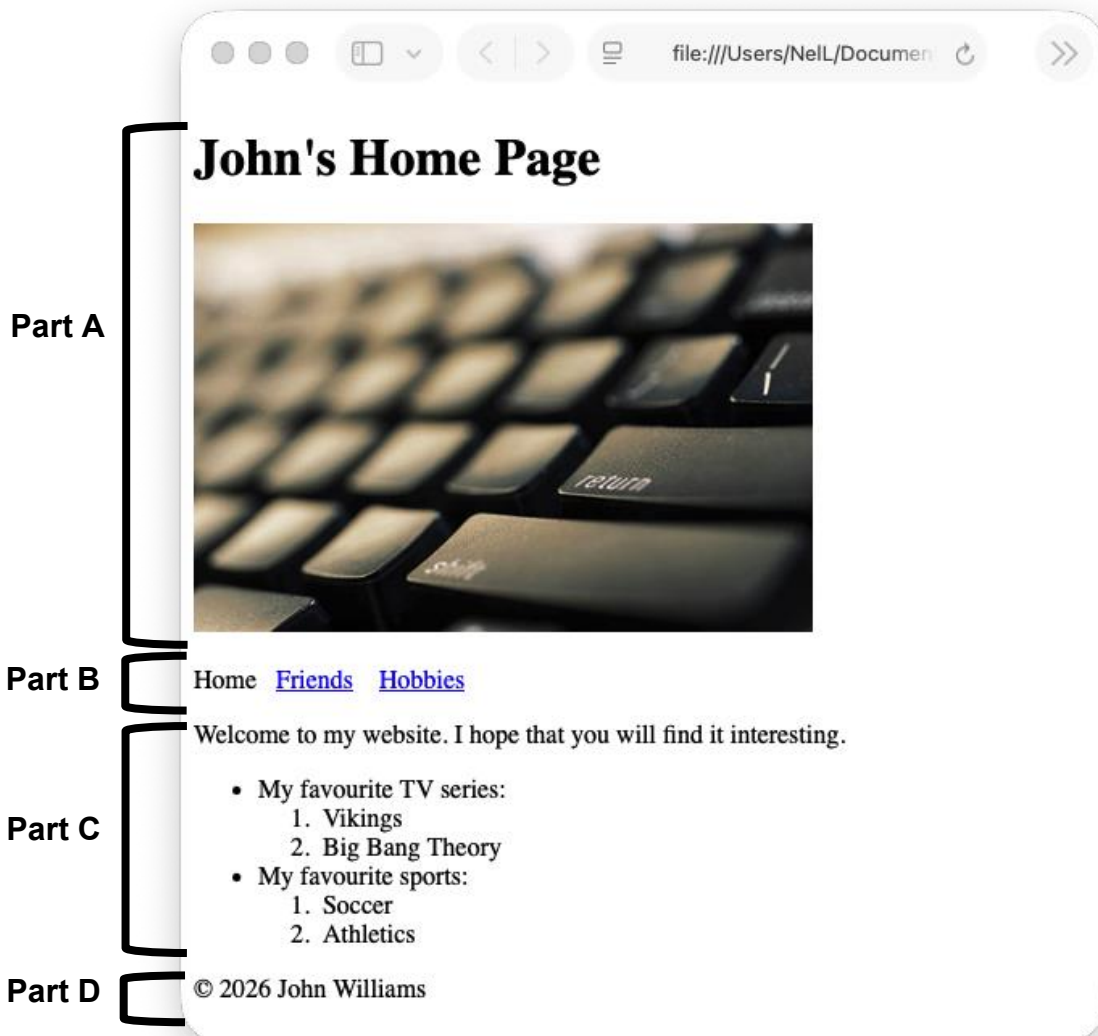

**Worksheet 5: HTML Semantics**

---

Consider the webpage depicted in **Figure 1**.

**Figure 1 – John's Home Page** (Filename: `index.html`)

---

---

**Question 1:** Write down the name of the HTML structural element that will be most suitable to structure each of the four parts (**A**, **B**, **C**, and **D**) of John's Home Page.

---

---

**Question 2:** Update the actual webpage you created in Worksheet 3 (John's Home Page) to include the HTML structural elements you have identified in Question 1.

Validate the completed `.html` file using the W3C validator
